Worldwide access on headends and middleware servers

AXING ensures with its **SMART**Portal, a web-based cloud application, an easy remote access on web configuration surfaces of its headends and middleware servers of the **IPTV**Solutions.

Configuration, maintenance, updates, failure analysis

With AXING's **SMART**Portal a worldwide configuration of all settings or software updates can be ensured. Long travel time to the installation location is not necessary anymore. On customer request AXING can provide the necessary support.

Benefits at a glance:

- ✓ Fast and easy support
- Configuration, installation of updates and monitoring of all integrated devices remotely
- ✓ Overview of all installed devices at a glance
- ✓ Sorted by installation location, device type, status etc.

Secure and encoded connection

AXING headends and middleware servers of the **IPTV**Solutions ensure a continuous secure and encoded connection to the AXING **SMART**Portal. Only requirement on site is an internet connection (e. g. via LAN, EoC, EoC-WLAN-Bridge, 3G/LTE-Router). There is no complicated configuration of a router and no additional software for the local computer needed.

Register and share

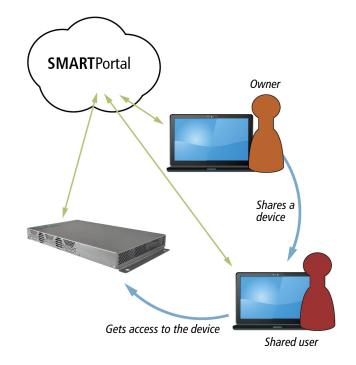

Register - fast and easy on www.axing-smartportal.com

The SMARTPortal user registers as owner, shared user, or team member using his e-mail address. The owner receives a system-generated user key.

The owner can share the access to a device by inviting a project manager, facility manager or SAT / IT specialist to manage. This shared user can manage, configure or maintain headends or middleware servers.

The user now enters the user name and user key in all of his headends and servers. The devices connect automatically to the **SMART**Portal and can now be managed, configured, monitored and maintained from anywhere – as simply as on-site.

Benefits at a glance:

- ✓ Easy registration
- ✓ Unique user key for headends and servers
- ✓ Invite specialists

Teamwork and AXING support

Teamwork

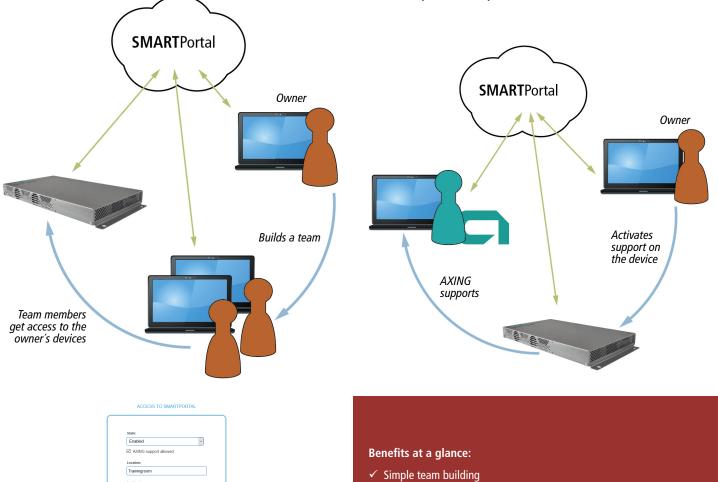

The owner can invite employees of his company as team members to have access to all devices of the owner.

Support from AXING

If support is necessary, and only when the owner explicitly requests this service, AXING can also access to the devices and assists in configuring and maintaining these devices. This can be decided individually per device and can only be decided by the owner.

- ✓ Competent AXING support
- ✓ Configurable per device
- ✓ Reliable after-sales services

Why Axing in particular?

We Swiss don't waste words. But what we do, we do thoroughly. Which is why Axing products are always state of the art. The compact design and easy installation are equally impressive.

What is more, with Axing you have a partner at your side offering you all the services you need as a one-stop provider - from planning via preparation through to delivery and operation. Contact us now; we would be pleased to advise you on site and make you a detailed offer.

Our AXING commitment:

- ✓ Very easy handling and installation of all Axing products
- ✓ Short-term and reliable delivery capability
- ✓ Consistently high quality
