

Opinion on REACH Regulation No.1907 / 2006

Dear Sir or Madam,

Since the publication of the "candidate list" of Substances of Very High Concern (SVHC) in December 2008 we are obligated to inform you about the presence of the listed substances in our products and goods in accordance with article 33 (1) of the European REACH regulation No 1907/2016.

To ensure the safe use of our products all our suppliers have been actively requested to comply with their information obligation according to Article 33 of the REACH Regulation to inform Axing in case of the presence of SVHC above the limit of 0.1 percent by weight in the products and their components supplied to us.

As a result of our material inventory against the 240 substances that are included in the candidate list following the recent update on 23rd January 2024 with it has become apparent that the following articles contain SVHC that are directly used in our product. Other Axing products not listed below do not contain any substances included in the list of candidates published by ECHA.
